## WHAT OUR CUSTOMERS SAY

“After much research, we purchased the AquaOx and have never looked back. All the benefits promised were delivered. Bathing young children in chlorinated water was scary considering every so often our city would mail a TTHM (trihalomethane) warning. This is cancer stuff. Not only does AquaOx eliminate chlorine in the water but also 100s of other contaminants, including lead. Our family and yes, even our loving pets, have welcomed the overall benefits. Your skin and hair after showering feels amazing. Great for coffee and cooking. Great for drinking. Basically, just GREAT.”
